Projects

CatalystTest (Testing Application)

TestRig Technologies

Sep 2024 to Present

CatalystTest is a comprehensive web application designed for managing testing workflows in a highly efficient and automated environment. Built using modern technologies including Next.js, React.js, JavaScript, Tailwind CSS, Node.js, Express.js, and Prisma DB, this platform empowers users to create and manage organizations, projects, use cases, test cases, defects, and more. It features an array of testing capabilities including AI-generated test cases, security testing, performance testing, UI testing, AI-driven testing, and manual testing, making it a versatile tool for test management.

- Organization and Project Management: Users can create and manage multiple organizations and projects.
- Testing Management: The platform supports the creation of use cases, test cases, and defect tracking.
- AI-Powered Automation: Automatically generated test cases using AI for increased efficiency.
- Comprehensive Testing Tools: Includes functionalities for security, performance, and UI testing.
- Manual and Automated Testing: Supports both manual test case execution and AI-driven automated testing.

Professional Experience

Front-End/UI Developer

Invezza Technologies Pvt. Ltd.

Feb 2023 to Present

Dynamic and results-oriented Front-End Web Developer with a proven track record of success in crafting engaging and user-centric web experiences. With hands-on experience spanning from February 2023 to the present at Invezza Technologies Pvt. Ltd., I specialize in leveraging cutting-edge technologies to deliver innovative solutions. My expertise lies in utilizing a diverse set of tools and frameworks, including React JS, Material UI, Node.js, MongoDB, PHP, MySQL, HTML, CSS, Tailwind CSS, and Bootstrap, to develop robust and intuitive web applications.

Key Skills and Accomplishments:

- Proficient in developing responsive and visually appealing web applications by harnessing the power of React JS, ensuring seamless performance across various devices.
- Skilled in utilizing Material UI and Bootstrap to implement sleek and modern user interfaces, enhancing user experience and engagement.
- Experienced in backend development using Node.js, enabling the creation of scalable and efficient web applications.
- Adept at database management, with hands-on experience in MongoDB, PHP, and MySQL, ensuring seamless data storage and retrieval.
- Successfully contributed to the development of the Invezza HRMS Portal, a comprehensive human resource management system, utilizing React JS, Material UI, Node.js, and MongoDB, to streamline employee data management processes.
- Strong command of HTML and CSS, coupled with expertise in Tailwind CSS for rapid development and styling of web applications.
- Proven ability to collaborate effectively with cross-functional teams to translate business requirements into technical solutions, delivering projects on time and within budget.
- Continuously stay abreast of emerging technologies and industry trends to drive innovation and maintain a competitive edge in the fast-paced field of web development.
